Engine production for the typical car manufactured today is a study in mass production.

Benefits in the manufacturing process for the manufacturer often run counter to the interests of the end user. What speeds up production and saves manufacturing costs results in an engine that is made to fall within a wide set of standards and specifications, often not optimized to meet the original design. In short, cheap and fast engine production results in a sloppy final product. Of course, this is not what enthusiasts want out of their engines. To maximize the performance of any engine, it must be balanced and blueprinted to the exact tolerances that the factory should have adhered to in the first place. Four cylinder, V-8, American or import, the performance of all engines is greatly improved by balancing and blueprinting. Dedicated enthusiasts and professional racers balance and blueprint their engines because the engines will produce more horsepower and torque, more efficiently use fuel, run cooler and last longer.

Mendoza the Jew combines a graphic history with primary documentation and contextual information to explore issues of nationalism, identity, culture, and historical methodology through the life story of Daniel Mendoza. Mendoza was a poor Sephardic Jew from East London who became the boxing champion of Britain in 1789. As a Jew with limited means and a foreign-sounding name, Mendoza was an unlikely symbol of what many Britons considered to be their very own "national" sport.

He's pored over the crime scenes of sixteen young women who died mysterious deaths, all in underground basements or caverns. He's delved into the killer's head and puzzled over the twisted religious overtones of the killings. What Daniel can't possibly know is that he will be Eve's next victim. He will be the killer's first Adam. After sixteen hopeless months, the case takes a drastic turn on a very dark night when Daniel is shot and left for dead. Resuscitated after twenty minutes of clinical death, Daniel finds himself haunted by the experience. He knows he's seen the killer's face, but the trauma of dying has obscured the memory and left him with crushing panic attacks. Nothing--not even desperate, dangerous attempts to reexperience his own

death--seems to bring him closer to finding the killer. Then Eve strikes again, much closer to home. And Daniel's obsession explodes into a battle for his life . . . his sanity . . . his very soul. Enter a world of death and near death that blurs the lines between fiction and reality in a way that will leave you stunned. "The detail is stunning, pointing to meticulous research in FBI methods, forensic medicine, and psychological profiling. We have to keep telling ourselves that this is fiction. At the same time, we can't help thinking that not only could it happen, but that it will happen if we're not careful." David M. Kiely and Christina McKenna, authors of *The Dark Sacrament*

This volume offers a novel philosophical thesis on the ontology of religion, and proposes a new conceptual repertoire to deal with supernatural religion. Jibu Mathew George offers an interdisciplinary perspective on the source and dynamics of religious ideation upon which belief and faith are based, at the fundamental levels of human reasoning. Using Max Weber's concept of "Disenchantment of the World" as a point of departure, this book endeavors to provide a pioneering philosophical and psychological understanding of the nature of enchantment, disenchantment, and possible re-enchantments as they pertain to the occidental cultural history in Weberian retrospect. *Wicked Words* - a collection of saucy and compelling short stories *Outrageous sex and lust-filled liasons* are plentiful yet again in the third volume of *Wicked Words* short stories. Analysis, was intended to bring together policymakers and other representatives of the food industry with radiation experts involved in measuring and assessing radioactivity in foodstuffs. The symposium was made timely by the problems arising from the nuclear reactor accident at Chernobyl, in the USSR, which brought out the lack of international agreement on guidance for responding to such radionuclide contamination of food and foodstuffs. The presentations by the radiation experts covered the sources of radionuclides-natural radioactivity, fallout from nuclear weapons tests, routine releases from nuclear facilities, and various nuclear accidents. The speakers represented a broad distribution in both scientific disciplines and international geographic origin. They summarized the available data on measurements and indicated the current procedures for assessing radiation exposure. It was hoped that the food industry representatives would bring out the problems posed to industry and governments by the presence of radioactivity in food.

NEW YORK TIMES BESTSELLER "A beautiful book." - Jo Good, BBC Radio London  
"When Harry Met Minnie made me cry and made me dance with joy. It's an exquisite tale about heartbreak and healing, critters and humans, and the little miracles life hands us when we need them the most." - Jeannette Walls, New York Times bestselling author of *The Glass Castle* and *Half Broke Horses* There are true fairy tales. Stories that exist because impossible-to-explain coincidences change everything. Except in real life, not all of them have conventional, happily-ever-after endings... This Manhattan tale of laughter and tears charts the Nora Ephron-esque love story between two "complicated" dogs, Harry and Minnie, and the gift of unexpected friendship they gave to their owners, Carol and Martha. Carol, who is dying of cancer caused by the toxic pollution in New York in the aftermath of 9/11, needs someone to take care of Harry, who is a 'great listener but does have a problem with large dogs. He is great with smaller dogs. If he sees a hose he will destroy it to protect you. He will figure out ways to let you know exactly how he feels'. When Martha has a chance encounter with Carol's friend, he can't help but notice Minnie, 'oh those chunky little legs', and so the matchmaking begins. After a disastrous first meeting, when Minnie doesn't appear to

think much of Harry (who is super keen), things improve and soon they are inseparable. As Carol's illness progresses, so a new friendship and community blossoms, Carol's Club. The bonds that grew changed Martha's life, Carol's life, Minnie's life and Harry's life. And they changed Carol's death as well. In this rich and touching narrative, Martha considers the ways our stories are shaped by the people we meet, and the profound love we can find by opening our hearts to unexpected encounters.
