The first book to explore the history, methods, and thinking behind sacrifice in the growing Santería faith • Explains the animal sacrifice ceremony in step-by-step detail • Shares the ancient African sacred stories that reveal the well-thought-out metaphysics and spirituality behind the practice of animal sacrifice • Chronicles the legal fight all the way to its 1993 U.S. Supreme Court victory to establish legal protection for the Santería faith and its practitioners Tackling the biggest controversy surrounding his faith, Santería priest Ócha'ni Lele explains for the first time in print the practice and importance of animal sacrifice as a religious sacrament. Describing the animal sacrifice ceremony in step-by-step detail, including the songs and chants used, he examines the thinking and metaphysics behind the ritual and reveals the deep connections to the odu of the diloggún--the source of all practices in this Afro-Cuban faith. Tracing the legal battle spearheaded by Oba Ernesto Pichardo, head of the Church of the Lukumi of Babaluaiye, over the right to practice animal sacrifice as a religious sacrament, Lele chronicles the fight all the way to its 1993 U.S. Supreme Court victory, which established legal protection for the Santería faith and its practitioners. Weaving together oral fragments stemming from the ancient Yoruba of West Africa, the author reconstructs their sacred stories, or patakís, that demonstrate the well-thought-out metaphysics and spirituality behind the practice of animal sacrifice in the Yoruba and Santería religion, including explanations about why each animal can be regarded as food for both humans and the orisha as well as how sacrifice is not limited to animals. Shedding light on the extraordinary global growth of this religion over the past 50 years, Lele's guide to the sacrificial ceremonies of Santería enables initiates to learn proper ceremony protocol as well as gives outsiders a glimpse into this most secretive world of the santeros.

Throughout history, people have assembled albums that record their lives and the world around them. Among the most remarkable of all albums ever created are those made in the years 1600-1657 for the emperors Jahangir and Shah Jahan. The Mughal dynasty ruled India for more than three centuries, but the period of greatest artistic production was that of these two great emperors, and the albums of paintings and calligraphy (called muraqqa' in Persian), that they assembled now serve as a window to understanding the history and culture of this

important period of Indian history. The paintings in the albums include formal (often symbolic) portraits of the emperors themselves, depictions of members of the royal family in relaxed private settings, portraits of courtiers, Sufi saints and mystics, genre scenes, and natural history subjects. This lavishly-illustrated, color catalogue, contains essays by Elaine Wright, Curator of the Islamic Collections, Chester Beatty Library, Wheeler Thackston, Lecturer, Harvard University, Susan Stronge, Curator Asia Department, Victoria and Albert Museum, and Steven Cohen, Textile Specialist, Independent Scholar and Author, London.
