

How To Prepare Bundles Guildhall Chambers

Read the complete wildly popular Fantasy Swapped Online saga in this exciting new three-book compilation! In the player versus player MMORPG Fantasy Realms Online, people live out the fantasies they can't in real life, no matter how bloody or sexy they might be, and Kromgorn the Barbarian is no exception. He and his guildies make constant warfare against their rivals in the Secret Order, a guild led by the dark Lich-Lord, who's also rumored to be a crazy hacker in real life, and they make fun of players who just use the game for stupid things like getting laid. But when the Lich-Lord releases a powerful spell that traps most of the players in the game permanently, Kromgorn accidentally winds up stuck in the avatar of his friend Lacey—a stupid, low-level female character that was designed exclusively to get down and dirty with the in-game pleasure system. The developers really modeled female bodies correctly in this game, and it's humiliating to have to go from being a high-level barbarian to a simpering little harem girl. With his guild drawing closer to an epic encounter with the Lich-Lord, they need all the high-level players they can get! Will Krom figure out a way to get himself out of this useless body and get back in time to help his friends, or will he be stuck forever working on his back in the slums of Lorengarde? The only way out of this mess might be to give in to his situation and find a way to become the most powerful Courtesan the game has ever seen. Who knows? He might even end up enjoying himself...

The year is 1068. The Norman Conquest of England is still in its early stages. William has been crowned king but faces stiff and determined opposition from Saxons across the country. In order to control rebellious peasants, William replaces Saxon lords with Normans. They set about building castles the length and breadth of the land and suppressing sedition. The city of Exeter, surrounded by its Roman walls, is thriving and is the third city of England, rich and famous for wool and cloth. It contributes much to the king's coffers in taxes. However, when the king demands a vastly increased "tribute" from the citizens, they refuse to pay as he is an alien and unwanted ruler. In the city lives Countess Gytha, mother of the late King Harold, who, as Earl of Wessex, was much loved by local Saxons. The presence of the countess acts as a focus for opposition to William's unreasonable demands. Tostig, a local carpenter, rises through the ranks of society and is elected leader of the Council of Elders. To him falls the task of writing to the king, refusing payment, and coordinating efforts to defend the city in case the Normans visit. Upon receiving Exeter's refusal to pay the tribute, William travels to Devon with an army to besiege the city if necessary and force the citizens to yield and swear fealty to him. The citizens barricade themselves behind their impenetrable walls and wait. In order to resolve the problem with all speed, the king captures a Saxon and makes an example of him to teach the citizens a lesson.
