An advisor to Italian publishing houses, a translator of Freud and Jung, a friend of Montale and Calvino, Roberto Bazlen was nothing if not a literary man, but kept his writings to himself. Here, translated into English for the first time, the reader will discover Bazlen's private oeuvre: an unfinished novel, *The Sea Captain*, which bears comparison with the fiction of Kafka and Beckett; a selection of entries from his notebooks dealing with topics as various as whether or not there is an "animal Jahweh" and the aesthetic limitations of the cinema; a trio of essays on his native city of Trieste; and a sampling of his editorial letters. *Notes Without a Text* is an introduction to the work of one of the unknown masters of twentieth-century European literature.

Labor resides at the center of all media and communication production, from the workers who create the information technologies that form the dynamic core of the global capitalist system and the designers who create media content to the salvage workers who dismantle the industry's high-tech trash. *The Routledge Companion to Labor and Media* is the first book to bring together representative research from the diverse body of scholarly work surrounding this often fragmentary field, and seeks to provide a comprehensive resource for the study and teaching of media and labor. Essays examine work on the mostly unglamorous side of media

and cultural production, technology manufacture, and every occupation in between. Specifically, this book features: -wide-ranging international case studies spanning the major global hubs of media labor; -interdisciplinary approaches for thinking about and analyzing class and labor in information communication technology (ICT), consumer electronics (CE), and media/cultural production; -an overview of global political economic conditions affecting media workers; -reports on chemical environments and their effect on the health of media workers and consumers; -activist scholarship on media and labor, and inspiring stories of resistance and solidarity.

Anyone with any kind of digital presence is a publisher. That includes web sites, but also businesses that blog, are present on social media sites such as Facebook, YouTube or Twitter, and even companies that publish and disseminate content digitally, such as white papers, e-books, podcasts, etc. The reason for this shift is clear: it's easier and cheaper than ever to have a digital presence - and to use your digital profile to market to your customers and prospects. Doing so reduces, and in some cases, eliminates, the need for advertising. Why buy media when you ARE the media? But as we all know, with great power comes great responsibility. What kind of content should you publish? In what forms, and on what platforms? How do you ensure that you'll keep having things to say, and how will you say them effectively, in a consistent "voice" unique to your organization? How will you know if your content strategy is working?

A powerful, epic novel of four friends as they grapple with desire, youth, death, and faith in a sweeping story by the international bestselling author of *The Solitude of Prime Numbers* “Perfect, moving, honest, brilliant, with characters who feel like old friends.” —Andrew Sean Greer, Pulitzer Prize-winning author of *Less* “Heaven and Earth is a stunning achievement and confirms him as an electrifying presence in contemporary fiction.”

—André Aciman, author of *Call Me by Your Name* and *Find Me* Every summer Teresa follows her father to his childhood home in Puglia, down in the heel of Italy, a land of relentless, shimmering heat, centuries-old olive groves and families who have lived there for generations. She spends long afternoons enveloped in a sunstruck stupor, reading her grandmother's paperbacks.

Everything changes the summer she meets the three boys who live on the farm next door: Nicola, Tommaso and Bern—the man Teresa will love for the rest of her life. Raised like brothers on a farm that feels to Teresa almost suspended in time, the three boys share a complex, intimate, and seemingly unassailable bond. But no bond is unbreakable and no summer truly endless, as Teresa soon discovers. Because there is resentment underneath the surface of that strange brotherhood, a twisted kind of love that protects a dark secret. And when Bern—the enigmatic, restless gravitational center of the group—commits a brutal act of revenge, not even a final pilgrimage to the edge of the world will be enough to bring back those perfect, golden hours in the shadow of the olive trees. An unforgettable story of enduring love,

Women's hairstyles have changed dramatically over

the past century. Charting the progression from styles dictated by fashion and tradition towards more unique and individualised looks, this book explores how the history of women's hair in the west corresponds with their liberation over the course of the 1900s. Refined illustrations, era-specific photographs, and contemporary images tell the story of the hairstyles and fashion trends that flourished between 1940 and 1980, as well as those in vogue today. The volume closes with a section dedicated to the most famous hairstylists and salons de coiffeur, past and present.

Father Romano Zago, a Franciscan Friar and scholar, wrote the book *Cancer Can Be Cured* to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of *Aloe Arborescens* and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande dol Sul , Brazil that he and the provincial Father Arno Reckziegel, witnessed the healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy where this aloe species grows naturally he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching the science behind this aloe species and the publication

of that research in this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf Aloe arborescens juice, honey and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the immune system and protect against diseases. However, this is the first book to reveal the little known potency

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

English summary: The names, origins, and by ways in the west, and the uses and 'imaginary' symbolism that has for centuries distinguished the commerce in incense, cinnamon, and myrrh from the far away regions of the orient to the merchant's stalls of the Greeks and Romans. This is an ideal journey through the centuries of classical antiquity following the caravan routes, legends and the Levantine enchantment that instill an atmosphere of dreams around the commercial and cultural exchanges between the Orient and Occident, prior to the advent of the great Islamic civilization. nomi, le origini, le vie di penetrazione in Occidente, gli usi e il simbolismo immaginario che ha contraddistinto per secoli il commercio di incenso, cinnamomo, mirra dalle lontane plaghe d'Oriente ai banchi dei mercati greci e romani. Un viaggio ideale nei secoli dell'antichità classica al seguito di vie carovaniere, di leggende e magie levantine che infondono un'atmosfera di sogno agli scambi commerciali e culturali tra Oriente ed Occidente, prima dell'avvento della grande civiltà islamica. Since the 1840s, when Victorian England emerged into the modern era and industrial cities became the new cultural centers, regionalist literature has posited itself as an aesthetic alternative to nationalist culture. Yet what differentiates regionalism's claims of authenticity, derived from blood and soil, from those of nationalism? Through close readings and theoretical elaborations, Roberto M. Dainotto reveals the degree to which regionalism mimics nationalism in valorizing ethnic purity. He interprets regionalism not as a genre in the pastoral tradition but as a rhetorical trope, a way of reading in which regionalism figures as the "other" against a historical process that disrupts the organic wholeness of place. Dainotto traces the genealogy of the idea of place in literature, examining European texts from Victorian England to Fascist Italy. He finds, for example, in Thomas Hardy's *The Return of the Native* a virtual thesaurus of regionalist

commonplaces. Elizabeth Gaskell's North and South mediates between Madame de Stal's privileging of the sophisticated north and Jean-Jacques Rousseau's nostalgia for the naive south. The regionalism of the Sicilian philosopher Giovanni Gentile exhibits a deep longing for the humanities as they define Italy and Western culture. Dainotto concludes with a close look at the rhetoric of Nazism and Fascism, dramatizing the convergence of regionalist aesthetics and nationalist ideology in Italy and Germany between the two World Wars.

We are currently eating, sleeping and breathing a new found religion of everything 'green'. At the very

heart of responsibility is industry and commerce, with everyone now racing to create their 'environmental' business strategy. In line with this awareness, there is much discussion about the 'green marketing opportunity' as a means of jumping on this bandwagon. We need to find a sustainable marketing that actually delivers on green objectives, not green theming. Marketers need to give up the many strategies and approaches that made sense in pure commercial terms but which are unsustainable. True green marketing must go beyond the ad models where everything is another excuse to make a brand look good; we need a green marketing that does good. The Green Marketing Manifesto provides a roadmap on how to organize green marketing effectively and sustainably. It offers a fresh start for green marketing, one that provides a practical and ingenious approach. The book offers many examples from companies and brands who are making headway in this difficult arena, such as Marks & Spencer, Sky, Virgin, Toyota, Tesco, O2 to give an indication of the potential of this route. John Grant creates a 'Green Matrix' as a tool for examining current practice and the practice that the future needs to embrace. This book is intended to assist marketers, by means of clear and practical guidance, through a complex transition towards meaningful green marketing. Includes a foreword by Jonathon Porritt.

This book draws on the extensive literature on populism, democracy, and emerging markets as well as interviews with senior government officials, experts, and journalists in the Philippines and beyond. This book is the first to analyze the significance and implications of the rise of Filipino president Rodrigo Duterte within a rapidly-changing Asia Pacific region. As China's power in the Pacific grows rapidly, nations that have traditionally been US allies, such as the Phillipines, are experiencing political convulsions; Duterte's open willingness to realign towards China (at the expense of America) in exchange for infrastructure investment is one of the clearest indicators of what China's rise might look like for nations around the world. Timely, precise, accessible and fast-paced, this book will be of value to scholars, journalists, policy-makers, and China watchers.
