This is the 'full' expanded desktop PDF version of Michael Brein's Travel Guide to Los Angeles which includes an ultra-large, zoomable official map of LA's subway and light rail system with embedded links to visitor attractions. This version of the Los Angeles guide is optimized for desktops and tablets. A 'lite' version (\$3.99) for mobile devices is also available but without these special features of the 'full' expanded edition. Michael Brein's Guide to Los Angeles by the Metro shows visitors how to go to Los Angeles's top 50 visitor attractions by the LA Metro (subway and light rail) and selected buses. The guide shows which transit to use, which transit stops to board and exit, and, using detailed mini-area-walking maps, how to walk exactly from these transit stops directly to the visitor attractions. Additional nearby points of interest are also indicated on these mini-area-walking maps. An ultra-large official map of the Los Angeles Metro is also provided. Michael Brein's Guide to Los Angeles is part of the world's first and only travel guide series specifically designed to show travelers how to sightsee the top 50 visitor attractions by public transportation in a variety of the world's most visited cities.
