The Colombian Nobel Prize winner, Gabriel García Márquez (b. 1927), wrote two of the great novels of the twentieth century, *One Hundred Years of Solitude* and *Love in the Time of Cholera*. As novelist, short story writer and journalist, García Márquez has one of literature's most instantly recognizable styles and since the beginning of his career has explored a consistent set of themes, revolving around the relationship between power and love. His novels exemplify the transition between modernist and post-modernist fiction and have made magical realism one of the most significant and influential phenomena in contemporary writing. Aimed at students of Latin American and comparative literature, this book provides essential information about García Márquez's life and career, his published work in literature and journalism, and his political engagement. It connects the fiction effectively to the writer's own experience and explains his enduring importance in world literature.

A guidebook to seducing, satisfying, and loving the only man you'll ever need In an act of generosity, Adrian Colesberry has written an exquisitely detailed guidebook to ensure that every reader knows precisely how to please him - in bed and beyond. Brimming with self-indulgent and incredibly bawdy humor, *How to Make Love to Adrian Colesberry* is a sexual memoir disguised as a manual on Colesberry's pet peeves, favorite positions, and surefire ways to turn on your man (aka Adrian Colesberry). Recounting dozens of annoying peccadilloes and helpful pro tips gleaned from his experiences with former lovers, Colesberry covers all corners to ensure that no stage of the court-and-conquer process is overlooked. Beginning with how to attract Colesberry, he later progresses to foreplay and finally the full monty, revealing his own erratic, often unerotic sexual history along the way. From his awkwardly celibate teenage years to the emotional scars inflicted by his domineering ex-wife, Colesberry muses on bondage, three-ways, toys, bi-curiosity, and other kinks. A pitch-perfect parody that spares no detail, *How to Make Love to Adrian Colesberry* is a hilarious and filthy new entrant into the fratire genre.

This book addresses the environmental, legal, social, and economic aspects of corporate social responsibility in the maritime industry. It discusses the voluntary aspects of the CSR concept and how the lines between informal and formal rules are merging and becoming fuzzy. Further, it shows how regulation is enhancing responsibility and sustainability in the maritime industry. The book gathers the experiences of the WMU, IMO, UN and public and private actors in developing and developed countries in the maritime industry.

This book provides an introduction to those parts of analysis that are most useful in applications for graduate students. The material is selected for use in applied problems, and is presented clearly and simply but without sacrificing mathematical rigor. The text is accessible to students from a wide variety of backgrounds, including undergraduate students entering applied mathematics from non-mathematical fields and graduate students in the sciences and engineering who want to learn analysis. A basic background in calculus, linear algebra and ordinary differential equations, as well as some familiarity with functions and sets, should be sufficient.

Personal status laws remain a highly politicized area of debate in the Middle East, as the arena in which the contentious issues of women's rights, religion and minority groups meet. This is especially so when it comes to divorce. In Tunisia, with the moderate Islamist party Ennahda winning the first elections following the 2011 revolution, questions of religion in public life have gained greater primacy. The country is often hailed for its progressive personal status code, seen as an exception to the practice in many other Muslim countries. Polygamy is banned, for example, and in divorce cases there is gender equality. However, Tunisia's legal system contains many gaps and leaves much room for

interpretation. Bearing in mind this importance of the role of Islam in judicial courts, Maaïke Voorhoeve investigates whether the more progressive, and ostensibly secular, principles enshrined in Tunisia's Personal Status Code of 1956 are in fact adhered to in divorce cases. And if not, whether judges frequently turn to the Sharia, custom or societal norms as their primary sources of guidance. Through extensive research in the Tunisian courts, Voorhoeve investigates the different types of divorce, the arguments presented to the court and the consequent legal decisions made. She focuses on the role of female judges, testing the assumption that they adjudicate in a more gender-neutral way and examining the impact they have had on Tunisian legal culture and through this, Tunisian society. Gender and Divorce Law in North Africa therefore sheds light on the wide-reaching debate throughout North Africa and the Middle East concerning the role of Islam and Sharia in the public, political, legal and private spheres. This debate, which often pits secularists against Islamists, but is in reality much more nuanced, is key in a variety of fields, including Middle East studies and Islamic law.

Identical twins Drs. Phyllis and Philetha Tucker have seen it all during their careers—murder, rape, bomb threats, and assaults with deadly weapons. Surprisingly, the sisters are not police officers, FBI agents, or private detectives. They are school teachers who together have spent over 60 years educating and at times saving the youth of America. Written in one voice of two women who share the same educational views, and in some instances, the same or similar experiences, *Can You See Us* provides a compelling glimpse into an educational system that unfortunately no longer sees children as its first priority but seems to focus on politics and money. The sisters share heart-wrenching stories that detail the bullying, abandonment, and personal tragedies children endure on a daily basis in the midst of a school system short on resources, funds, and time. They offer a moving perspective that only a teacher can provide while joyfully watching some children succeed and helplessly witnessing others fail. The stories in *Can You See Us* will hopefully encourage parents, educators, and administrators to begin taking the crucial steps to transform an educational system in desperate need of reform. Absolutely enlightening. Professor Bonnie Ronson

This book is about competitive advantage and how it is created at the company level. Our theoretical starting point is that the alignment of strategies and control systems affects the firm's chances of successfully positioning itself in its chosen area of competition. The firm is in a better position to concentrate on activities that create value for the customer if its strategies and control systems are mutually consistent and adapted to expected external demands. This book is thus a contribution to the literature that treats competitive advantage on the basis of the match between the environment and internal resources. Our ambition has been to provide additional knowledge in the area through a comprehensive discussion on co-ordination and integration of strategies and control systems.

Semiotics has been making progressively inroads into marketing research over the past thirty years. Despite the amply demonstrated conceptual appeal and empirical pertinence of semiotic perspectives in various marketing research streams, spanning consumer research, brand communications, branding and consumer cultural studies, there has been a marked deficit in terms of consolidating semiotic brand-related research under a coherent disciplinary umbrella with identifiable boundaries and research agenda. The Handbook of Brand Semiotics furnishes a compass for the perplexed, a set of anchors for the inquisitive and a solid corpus for scholars, while highlighting the conceptual richness and methodological diversity of semiotic perspectives. Written by a team of expert scholars in various semiotics and branding related fields, such as John A. Bateman, David Machin, Xavier Ruiz Collantes, Kay L. O'Halloran, Dario Mangano, George Rossolatos, Merce Oliva, Per Ledin, Gianfranco Marrone, Francesco Mangiapane, Jennie Mazur, Carlos Scolari, Ilaria Ventura, and edited by George Rossolatos, Chief Editor of the International Journal of Marketing Semiotics, the Handbook is intended as a point of reference for researchers who wish to enter the 'House of Brand Semiotics' and explore its marvels. The Handbook of Brand Semiotics, actively geared towards an inter-disciplinary dialogue between perspectives from marketing and semiotics, features the state-of-the-art, but also offers directions for future research in key streams, such as: Analyzing and designing brand language across media Brand image, brand symbols, brand icons vs. iconicity The contribution of semiotics to transmedia storytelling Narrativity and rhetorical approaches to branding Semiotic roadmap for designing brand identity Semiotic roadmap for designing logos and packaging Comparative readings of structuralist, Peircean and sociosemiotic approaches to brandcomms Sociosemiotic accounts of building brand identity online Multimodality and Multimodal critical discourse analysis Challenging the omnipotence of cognitivism

Is divine election biblical? Does man have a free will and a moral responsibility to accept the gospel? Does man having a free will deny God's sovereignty? Does God elect people unconditionally to eternal life and damnation? Do I have to be persevering in my faith in order to be assured of my salvation? What degree of perseverance is required to be assured of salvation? Are sinners "going to be saved anyway"? Why devote energy into gospel outreach? These relevant questions are answered in this helpful book which presents the balance found in the Word of God with regards to God's sovereignty and human responsibility.

Over the past decade, early childhood education and care has moved onto the policy agenda in many countries. There is growing recognition that early access to quality education and appropriate care provides young children with a good and fair start in life. While scientific research constantly brings new insights into brain development and the enormous importance of the first years of a child's life, the early 20th century theories of one Russian psychologist, Lev S. Vygotsky (1896–1934), have had profound and diverse impacts upon the early childhood education traditions in both the East and the West and remain highly relevant today. Recently, more than 750 early childhood education researchers, practitioners, policymakers, and NGO activists from around the world met in Prague at "Exploring Vygotsky's Ideas: Crossing Borders," the 17th Annual Conference of the European Early Childhood Education Research Association (EECERA), hosted by the International Step by Step Association (ISSA). In an effort to share many of the intriguing ideas and practices discussed during the conference with a broader audience, ISSA invited leading presenters to explore their experiences in early childhood through the prism of Vygotsky's theories and ideas. The result of ISSA's initiative is this

volume of papers which examine Vygotsky's legacy on early childhood education systems in both the East and the West, offering ideas which can be used to work for the benefit of children and societies across the globe.

Excerpt from Department of Housing and Urban Development Urban Initiatives Program: Boston Housing Authority Proposal Since the inception of public housing programs in 1937, the Boston Housing Authority has been committed to providing safe, decent and sanitary housing for low income families and elderly residents of Boston. Today bha controls over housing units, one out of every ten housing units in Boston. Many of these units are located in developments troubled by a variety of physical, social and management problems. These problems have resulted from a combination of factors, including inadequate funding, management and maintenance difficulties, design deficiencies, obsolescence of major systems and equipment, neighborhood deterioration, radical shifts in population, increasing frequency of crime and vandalism, and widespread feelings of fear and helplessness among public housing residents. There is no quick, simple and cheap solution to these problems, and a piecemeal approach simply does not work. The solution lies in an integrated and comprehensive approach which reflects the complex and interrelated nature of the problems themselves. The Public Housing Urban Initiatives Program, using a comprehensive approach with substantial funds to back it up, provides the Boston Housing Authority with a real opportunity to begin to address these problems. The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on, microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a good time and Warm Beer and Lousy Food was the place to be.

Scenography – the manipulation and orchestration of the performance environment – is an increasingly popular and key area in performance studies. This book introduces the reader to the purpose, identity and scope of scenography and its theories and concepts. Settings and

structures, light, projected images, sound, costumes and props are considered in relation to performing bodies, text, space and the role of the audience. Concentrating on scenographic developments in the twentieth century, the Introduction examines how these continue to evolve in the twenty-first century. Scenographic principles are clearly explained through practical examples and their theoretical context. Although acknowledging the many different ways in which design shapes the creation of scenography, the book is not exclusively concerned with the role of the theatre designer. In order to map out the wider territory and potential of scenography, the theories of pioneering scenographers are discussed alongside the work of directors, writers and visual artists.

Octave Feuillet (1821-1890) est un romancier et dramaturge français, surnommé le «Musset des familles». Son père l'envoya à Paris, au Lycée Louis-le-Grand où il fit de brillantes études et on le destinait à la diplomatie. En 1840 il confia à son père son intention de devenir plutôt écrivain et son père le renia. Il revint à Paris et vécut tant bien que mal en devenant journaliste. En collaboration avec Paul Bocage il écrivit sous le nom de Désire Hazard les pièces *Echec et Mat*, *Palma*; ou, *La Nuit de Vendredi Saint* et *La Vieillesse de Richelieu*. Au bout de trois ans son père lui pardonna et lui fit une pension. Feuillet put jouir alors d'une existence confortable à Paris et publia ses premiers romans. Il connut son premier grand succès en 1852, quand il publia un roman, *Bellah*, et une comédie, *La Crise*. Tous deux furent réimprimés dans la *Revue des Deux Mondes*. D'autres œuvres furent acclamées comme *La Petite Comtesse* (1857), *Dalila* (1857) et *Le Roman d'un Jeune Homme Pauvre* qui fut très populaire (1858).

Frederick Apthorp Paley (1815-1888) published Volume 1 of his English commentary on Euripides in 1857. It contains the Greek text of seven of Euripides' most popular plays: *Rhesus*, *Medea*, *Hippolytus*, *Alcestis*, *Heraclidae*, *Supplices* and *Troades*, each with an introductory essay. Paley's detailed commentary is given at the foot of each page of Greek text. It discusses Euripides' language and style, explaining difficult grammatical structures, syntax and vocabulary; poetic form and Euripides' innovative approach to composing tragedy; textual variation between manuscripts; the historical and literary context of each play; and their reception history. Paley's work greatly influenced Euripidean scholarship: for over a century it was a widely used teaching tool in schools and universities. An outstanding piece of classical scholarship and a key text in the history of Euripidean interpretation, it deserves continued consideration by future generations of scholars and students.
