of the certification exams. Practice tests include clear rationales that help identify areas where more study is needed. Test-taking tips and study techniques offer helpful suggestions on improving retention and recall. Convenient, easy-to-read outline format streamlines key information for at-a-glance review. Study tips and test-taking strategies help students focus their review efforts and familiarize them with the format and concepts found on the CMA and RMA exams. Companion CD-ROM offers an electronic testing experience, with electronic versions of all the pre-tests in the text, as well as 1100 review questions. New chapters on HIPAA and IV Therapy include the latest information to match the current standards of the AAMA and AMT. Offers the latest information on the top 50 drugs most commonly encountered in practice. Updated laboratory tests and normal values reflect the most recent advances in laboratory testing technology. Additional illustrations clarify key concepts. Three 100-question pre-tests covering general, administrative, and clinical medical assisting concepts and competencies.

Corresponding to the chapters in the main Bonewit text, Study Guide for Today's Medical Assistant, Clinical & Administrative Procedures, 3rd Edition features a variety of practical exercises, activities, checklists, review questions, and more to help users master important medical assisting knowledge and skills. This comprehensive study guide has been thoroughly updated to reflect the 2015 CAAHEP competencies and key areas of practice, such as: electronic medical records, HIPAA regulations, advanced directives, emergency preparedness, ICD-10 coding, billing documentation, medical office technology, medical asepsis, vital signs, pediatric immunizations and injections, colonoscopy procedures, IV therapy, and CLIA waived tests. Consistent, meticulous study guide coverage aligns seamlessly with the main Bonewit text and all other Bonewit solution learning products. Evaluation of Competency checklists assess readers' performance versus stated objectives and performance standards. Critical thinking activities encourage readers to think outside the box and imagine what they would do in real-life situations. Laboratory assignments at the beginning of each chapter give readers a guide on each chapter's procedures, including guidelines on how many practices are required, which study guide pages correlate to the procedure, and which procedures are also in the procedural videos. Key term assessment tests readers' knowledge of the terms presented in the main text. Evaluation of Learning questions assess readers' progress and are an excellent tool to prepare for the certification exam. Practice for Competency checklists help readers practice each of their clinical skills. Pharmacology math exercises give readers a chance to practice their basic math skills in a way that relates to their future job. Chapter assignment tables at the beginning of each chapter guide readers through the textbook and study guide chapters, and provides a great tracking device for recording progress of textbook reading assignments and study guide activity assignments. NEW! Updated material aligned to most current CAAHEP and ABHES competencies ensures success and employability for today's medical assistants. NEW! Material from the chapter on nutrition is also incorporated into the accompanying study guide material. NEW! Updated content on emergency preparedness and medical records ensure readers are up-to-date on these key topics. NEW! Application to SimChart for the Medical Office where appropriate allows readers to prepare for the real world by working on Elsevier's own educational EHR. NEW! Expanded A&P key terminology sections give readers ample A&P key term practice.

Medical Assisting Simplified: Pharmacology presents the core basic concepts of pharmacology in a light-hearted, humorous, readable, extremely practical style that makes teaching and learning fun. A host character guides students through pharmacology concepts needed to pass certification exams required by CAAHEP and ABHES. Boxes with eye-catching icons provide practical advice about workplace scenarios and other topics. More than 175 full-color illustrations enhance visual learning.

There's no better way to get ready for your Medical Assisting certification exam! With some 2,500 practice questions and customized online tests, Elsevier's Medical Assisting Exam Review, 5th Edition provides complete preparation for all six certification exams — the CMA, RMA, CMAS, CCMA, CMAA, and CMAC. An illustrated, outline format makes it easy to review key medical assisting concepts and competencies, including anatomy and physiology, medical terminology, diseases and disorders, and administrative and clinical tasks. Written by medical assisting educator Deborah Holmes, this review includes answers and rationales for each question to help you strengthen any weak areas and prepare effectively for your certification exam. UNIQUE! Six certification exams are covered: the CMA (AAMA), RMA (AMT), CMAS (AMT), CCMA (NHA), CMAA (NHT), and CMAC (AMCA). Convenient, easy-to-follow outline format provides at-a-glance review of the subject areas typically found on certification exams for Medical Assisting. Complete test preparation includes three pretests — administrative, clinical, and general — as well as a comprehensive posttest, with answers and rationales for all questions. Study tips and test-taking strategies provide advice and insight into preparing effectively for your certification exam. Hundreds of additional practice questions are included on the Evolve companion website, along with flash cards and A&P animations, to boost your exam readiness and test-taking confidence. NEW! 2,500 questions — including 550 all-new questions — include answers, rationales, and mapping to six exam blueprints (CMA, RMA, CMAS, CCMA, CMAA, and CMAC). NEW content includes coverage of the Affordable Care Act, ICD-10, electronic office systems, vaccination updates, and more. NEW! Online test generator allows you to focus your practice on any topic and to create timed simulated exams. NEW! Records Management chapter tackles both paper management and Electronic Health Records, emphasizing the most up-to-date electronic ways to manage records. UPDATED! High-quality illustrations reinforce your understanding of medical assisting content and include photos of clinical equipment and supplies.

Anatomy & Physiology! This practical, hands-on text features an easy-to-understand writing style and detailed visuals designed to help you master all the Medical Assisting knowledge, procedures, and skills needed for career success. Based on trusted content from the bestselling Kinn's product suite, this brand-new text and its accompanying resources incorporate the latest standards and competencies throughout, as well as approachable coverage of math, medical terminology, soft skills, and anatomy and physiology. Easy-to-grasp writing style is appropriate for all levels of learners in all types of Medical Assisting programs. Trusted Kinn's content supports the following exam plans: CMA from the American Association of Medical Assistants; RMA and CMAS from American Medical Technologist; CCMA and CMAA from the National Healthcareer Association; NCMA from the National Center for Competency Testing; and CMAC from the American Medical Certification Association. Emphasis on anatomy and physiology — along with pathology, signs/symptoms, diagnostic procedures, and treatments — enables you to meet key competencies. Strong focus on medical terminology includes feature boxes that highlight chapter-related medical terminology to help you learn word parts, pronunciation, and definitions. Math exercises embedded throughout the text challenge you to sharpen your math skills. Procedures are mapped to CAAHEP and ABHES accreditation standards down to the step, offer rationales for each step, and can be conveniently performed in the classroom. Customer Service boxes in appropriate chapters help you develop the soft skills that employers seek when hiring Medical Assistants. Applied learning approach introduces a case scenario at the beginning of each chapter and then revisits it throughout the chapter to help you understand new concepts as they are presented. Chapter learning tools include vocabulary with definitions, critical thinking applications, and content that ties directly to the order of learning objectives. Pharmacology glossary of the top 100-150 most common over-the-counter and prescription medications gives you quick access to pronunciation guides, generic and trade names, and drug classification.

Get more practice with medical assisting competencies and test your critical thinking skills! Designed to reinforce your understanding of Kinn's *The Administrative Medical Assistant: An Applied Learning Approach, 8th Edition* by Alexandra P. Adams, this study guide offers a complete review of content and a wide range of exercises to help you master CAAHEP and ABHES competencies and prepare for your career in medical assisting. A variety of exercises test your knowledge and critical thinking skills, including vocabulary review, multiple choice, fill in the blank, and true/false questions. The most current content and competencies associated with CAAHEP and ABHES are included, such as emergency preparedness, patient education, and documentation. Procedure checklists allow you to tear out each sheet and submit to your instructor for evaluation. Additional exercises enhance learning with skills and concepts, word puzzles, case studies, workplace applications, and Internet activities. Work documentation proves to your instructor and to accrediting organizations that you have completed each competency. UPDATED coverage of the Electronic Health Record ensures that you are familiar with the technology you'll use on the job. UPDATED content reflects revisions to the Kinn's *The Administrative Medical Assistant, 8th Edition* textbook. Expanded coverage of emergency preparedness

helps you meet specific CAAHEP and ABHES requirements.
