

Volevo Essere Giulietta Elit

Lawrence Venuti, winner of a Guggenheim fellowship and the Global Humanities Translation Prize, among many other awards, has translated into English these Italian Gothic tales of obsessive love, mysterious phobias, and the hellish curse of everlasting life. In this collection of nine eerie stories, Iginio Ugo Tarchetti switches effortlessly between the macabre and the breezily comical. Set in nineteenth-century Italy, his characters court spirits and blend in with the undead: passionate romances filled with jealousy and devotion are fueled by magic elixirs. Time becomes fluid as characters travel between centuries, chasing affairs that never quite prosper. First published by Mercury House in 1992.

What makes Tony Soprano so humanly amiable? Why we would rather leave the cannoli and take the gun? Do we really want Scarface to succeed? Is Michael Corleone a hero or a villain? Roberto Dainotto traces both the development of the mafia, from its rural beginnings in Western Sicily and its growth into what has been aptly described as a global multinational of crime, alongside its parallel evolution in music, print, and on the big screen. Rather than dismissing our collective imagining of the mafia as merely untrue, Dainotto sets out to understand what needs and desires, what kind of universal material and psychic longings are satisfied by our fantasies about the mafia. Dainotto offers a new way of understanding our enduring fascination with what lurks behind the sinister Omertà of the family business.

A stark departure from traditional philology, *What is Authorial Philology?* is the first comprehensive treatment of authorial philology as a discipline in its own right. It provides readers with an excellent introduction to the theory and practice of editing 'authorial texts' alongside an exploration of authorial philology in its cultural and conceptual architecture. The originality and distinction of this work lies in its clear systematization of a discipline whose autonomous status has only recently been recognised (at least in Italy), though its roots may extend back as far as Giorgio Pasquali. This pioneering volume offers both a methodical set of instructions on how to read critical editions, and a wide range of practical examples, expanding upon the conceptual and methodological apparatus laid out in the first two chapters. By presenting a thorough account of the historical and theoretical framework through which authorial philology developed, Paola Italia and Giulia Raboni successfully reconceptualize the authorial text as an ever-changing organism, subject to alteration and modification. *What is Authorial Philology?* will be of great didactic value to students and researchers alike, providing readers with a fuller understanding of the rationale behind different editing practices, and addressing both traditional and newer methods such as the use of the digital medium and its implications. Spanning the whole Italian tradition from Petrarch to Carlo Emilio Gadda, this ground-breaking volume provokes us to consider important questions concerning a text's dynamism, the extent to which an author is 'agentive', and, most crucially, about the very nature of what we read.

A critically acclaimed foundational text, *Translation in Systems* offers a comprehensive guide to the descriptive and systemic approaches which have shaped translation studies. Theo Hermans considers translation norms, equivalence, polysystems and social systems, covering a wide range of theorists in his discussion of the principles of translation studies. Reissued with a new foreword by Kathryn Batchelor, which updates the text for a new generation of readers, *Translation in Systems* endures partly on account of Hermans's vivid and articulate writing style. The book covers the fundamental problems of translation norms, equivalence, polysystems and social systems, encompassing not only the work of Levý, Holmes, Even-Zohar, Toury, Lefevere, Lambert, Bassnett, D'hulst and others, but also giving special attention to contributions derived from Pierre Bourdieu and Niklas Luhmann. Hermans explains how contemporary descriptive approaches came about, what the basic ideas were, how those ideas have evolved over time, and offers a critique of these approaches. With practical questions of how to investigate translation (including problems of definition, description and assessment of readerships), this is essential reading for graduate students and researchers in translation studies and related areas.

This text examines the imagery linked to the term "mafia". The author aims to break down the mystique surrounding the word, attributing its buildup to sensational reporting, hidden agendas and the public's fascination with the idea of a secret criminal society. In tracing this mystique through history, the author determines how much of that image comes from actual events. When one thinks of the Mille Miglia, the most celebrated race in the world that took place between 1927 and 1957, the mind certainly goes back to OM, Bugatti, Mercedes-Benz, Porsche, Lancia as well, of course, as the ultra-victorious Alfa Romeo and Ferrari, the greatest car manufacturers that have competed in the Italian marathon. But the memorable history of the great race is made up mainly of men: drivers, co-drivers, mechanics, technical and sports directors, organisers as well as film and show business personalities plus, naturally, an immense public following. All of those faces have names, some well-known others less so, and stories, some well worth telling others less so. The book brings together a series of portraits in alphabetical order that make up the fragments of this historic sports and cultural mosaic that was the Mille Miglia, once again told by Leonardo Acerbi from his deep knowledge of the Brescia-based race.

Despite a rapidly changing economic and legal landscape, Italian mafias remain prominent actors in the global criminal underworld. This book provides an extensive and up-to-date view of how they adapt to shifting economic opportunities and intensifying legal and civic backlash.

This carefully crafted ebook: "BRAVE NEW WORLD" is formatted for your eReader with a functional and detailed table of contents. Set in London in the year AF 632 (2540 AD) this political and dystopian science fiction novel, paints a chilling picture of a consumerist society where being a misfit spells utter doom for a person. Here assisted reproductive technologies, mindless sex and orgies, and guided rules for expressing of human emotions reduce relationships to mechanical farces. Written in 1931, the novel is still relevant today and more so because, as Huxley mentioned in "Brave New World Revisited", our real world is turning into the world of the novel much faster than we originally thought! Aldous Huxley (1894–1963) was an English writer, novelist, philosopher, humanist, pacifist, and satirist. He later became interested in spiritual subjects such as parapsychology and philosophical mysticism. By the end of his life, Huxley was widely acknowledged as one of the pre-eminent intellectuals of his time. He was nominated for the Nobel Prize in Literature in seven different years.

When the novel Brave New World first appeared in 1932, its shocking analysis of a scientific dictatorship seemed a projection into the remote future. Here, in one of the most important and fascinating books of his career, Aldous Huxley uses his tremendous knowledge of human relations to compare the modern-day world with his prophetic fantasy. He scrutinizes threats to humanity, such as overpopulation, propaganda, and chemical persuasion, and explains why we have found it virtually impossible to avoid them. Brave New World Revisited is a trenchant plea that humankind should educate itself for freedom before it is too late.

Corrado Alvaro's Fear in the World was published a decade before Orwell's 1984, but is not well known outside Italy, perhaps because of the timing of the publication just before the Second World War. Alvaro had visited the Soviet Union as a journalist, but was probably motivated to write this dystopian novel by aspects of modernity that concerned him, particularly the use of fear for political purposes which was not afflicting Russia alone. He was interested in the psychology of fear and the extent to which individuals and the crowd participate in their own regimentation. The names of countries, cities and leading political figures such as Stalin are never referred to, but as in the works of Orwell they are clearly identifiable from their descriptions: the author was writing in a Fascist country against a Fascist censor and had to cut his cloth accordingly. This is a dark novel, not quite as dark as 1984, but it is more claustrophobic. The feeling of inevitability is there from the first page, and it is experienced as we experience real life. The imagined truth takes us closer to where we really are. The travails of the love affair at the core of this novel quite possibly arise from perceptions that the regime exploits in a quite ad hoc manner. And it leads the reader through an extraordinary sequence of events and observations which encompass a vast range of emotions and ideas expressed in a unique prose style. The modern Leviathan appears to be a well-oiled machine, but towards the end it becomes clear that this is merely an appearance of efficiency and omniscience, but appearances can be powerful. Alvaro is particularly interested in how the state uses quasireligious mechanisms and rituals to assert its power. The central character returns to the country after a long period abroad, and sees things initially through foreign eyes, living a life similar to the one Alvaro did when in Russia. He is not a natural rebel, and very much wants to fit in, but he finds this difficult to achieve. The regime boasts that it has an ally in history, but destiny is elusive, however much the characters feel that they are driven by it.

While complementing other volumes in the BTL series in its exploration of the state of the art of translator training, this collection of essays is solely focused on audiovisual translation, one of the most complex and dynamic areas of the translation discipline. The book offers an easily accessible yet comprehensive introduction to the fascinating subject of translating films, video games and other audiovisual material. Offering a balance between theory and practice, the main aim of this volume is to provide a wealth of teaching and learning ideas in areas such as subtitling, dubbing, and voice-over without forgetting the newer fields of subtitling for the deaf and audio description for the blind. The Didactics of Audiovisual Translation comes with an accompanying CD-Rom, highlighting its fundamentally interactive approach, and the activities proposed can be adapted to different learning environments and used with different language combinations.

Volevo la parte di Giulietta Capuleti più di ogni altra cosa al mondo, e per riuscirci ho studiato come una matta... e invece al provino ho fatto un buco nell'acqua. Odio il professor Gillinger! Ah, ma ora mi sono presa una bella rivincita. Come? Grazie a un incantesimo che promette di ottenere tutto ciò che si desidera. Solo che devo aver sbagliato qualcosa, perché non solo non interpreto Giulietta, ma ho richiamato dal XVI secolo nientemeno che... Shakespeare! No, non William. Edmund, suo fratello. Lui è davvero dolcissimo con me e... ecco, forse è un tantino troppo focoso, ma che problema c'è? Okay, quando vede passare un'auto si mette a strepitare di demoni e negromanzia e se squilla un cellulare va fuori di testa. Però è così carino, e in lui c'è qualcosa che mi fa camminare a un metro da terra! Spero solo che l'atterraggio, se ci sarà, non sia troppo tragico...

A missing legacy, a stolen son, and one dangerous secret changed everything for them... SHE STOLE MY PROPERTY I'll never forget the night I caught her sneaking around my place. She thought she could steal from me and get away with it, but I have no intention of letting her get away at all. Mian Ross has a lesson to learn, and I'm going to be the one to teach it to her. HE STOLE MY SON I'll never forget the night I made the second biggest mistake of my life. It was supposed to be a simple job, but it quickly became so much more--one that cost my freedom and cost my son. Angel Knight became my worst nightmare... and now, he'll never let us go.

Reversible Destiny traces the history of the Sicilian mafia to its nineteenth-century roots and examines its late twentieth-century involvement in urban real estate and construction as well as drugs. Based on research in the regional capital of Palermo, this book suggests lessons regarding secretive organized crime: its capacity to reproduce a subculture of violence through time, its acquisition of a dense connective web of political and financial protectors during the Cold War era, and the sad reality that repressing it easily risks harming vulnerable people and communities. Charting the efforts of both the judiciary and a citizen's social movement to reverse the mafia's economic, political, and cultural power, the authors establish a framework for understanding both the difficulties and the accomplishments of Sicily's multifaceted antimafia efforts.

Ada Gobetti's Partisan Diary is both diary and memoir. From the German entry into Turin on 10 September 1943 to the liberation of the city on 28 April 1945, Gobetti recorded an almost daily account of events, sentiments, and personalities, in a cryptic English only she could

understand. Italian senator and philosopher Benedetto Croce encouraged Ada to convert her notes into a book. Published by the Italian publisher Giulio Einaudi in 1956, it won the Premio Prato, an annual prize for a work inspired by the Italian Resistance (Resistenza). From a political and military point of view, the *Partisan Diary* provides firsthand knowledge of how the partisans in Piedmont fought, what obstacles they encountered, and who joined the struggle against the Nazis and the Fascists. The mountainous terrain and long winters of the Alpine regions (the site of many of their battles) and the ever-present threat of reprisals by German occupiers and their fascist partners exacerbated problems of organization among the various partisan groups. So arduous was their fight, that key military events--Italy's declaration of war on Germany, the fall of Rome, and the Allied landings on D-Day --appear in the diary as remote and almost unrelated incidents. Ada Gobetti writes of the heartbreak of mothers who lost their sons or watched them leave on dangerous missions of sabotage, relating it to worries about her own son Paolo. She reflects on the relationship between anti-fascist thought of the 1920s, in particular the ideas of her husband, Piero Gobetti, and the Italian resistance movement (Resistenza) in which she and her son were participating. While the Resistenza represented a culmination of more than twenty years of anti-fascist activity for Ada, it also helped illuminate the exceptional talents, needs, and rights of Italian women, more than one hundred thousand of whom participated.

This innovative volume draws together a series of perspectives on the everyday experience of Europeans in the 'age of fascism'. The contributions go beyond the conventional stereotypes of organized resistance to examine the tensions and ambiguities within the communities, both national and local, that opposed fascism. The authors show that under the pressures of civil conflict, occupation, and even everyday life, motives were rarely as pure and political alignments seldom as straightforward as our reassuring collective memories of fascism and war have led us to believe. The combination of original research and engagement with relevant debates makes this collection invaluable both for researchers in the social and political history of World War II and for students of modern European history.

Over the course of the 20th century, the rapid transformation of Italy from an impoverished, predominantly agricultural nation to one of the strongest economies in the world forged a fascinating and contradictory society where gender relations were a particular mix of modernity and tradition. In this accessible and innovative study, Perry Willson provides a nuanced and insightful analysis of the impact of social, political, economic and cultural developments on Italian women's lives. She also explores how women were affected by, and how they themselves helped shape, key historical events such as the rise of Fascism, the 2 world wars, the 'economic miracle' of the post-war years and the cultural and political upheavals of the 1970s. *Women in Twentieth Century Italy* is the first book-length overview of Italian women's experience during this period of intense and dramatic change. Drawing on the latest historiography in the field and written in a lively and engaging manner, it is essential reading for anyone with an interest in Italy's recent past.

From the precocious charms of Shirley Temple to the box-office behemoth *Frozen* and its two young female leads, Anna and Elsa, the girl has long been a figure of fascination for cinema. The symbol of (imagined) childhood innocence, the site of intrigue and nostalgia for adults, a metaphor for the precarious nature of subjectivity itself, the girl is caught between infancy and adulthood, between objectification and power. She speaks to many strands of interest for film studies: feminist questions of cinematic representation of female subjects; historical accounts of shifting images of girls and childhood in the cinema; and philosophical engagements with the possibilities for the subject in film. This collection considers the specificity of girls' experiences and their cinematic articulation through a multicultural feminist lens which cuts across the divides of popular/art-house, Western/non Western, and north/south. Drawing on examples from North and South America, Asia, Africa, and Europe, the contributors bring a new understanding of the global/local nature of girlhood and its relation to contemporary phenomena such as post-feminism, neoliberalism and queer subcultures. Containing work by established and emerging scholars, this volume explodes the narrow post-feminist canon and expands existing geographical, ethnic, and historical accounts of cinematic cultures and girlhood.

A rediscovered mountaineering classic and the extraordinary true story of a daring escape up Mount Kenya by three prisoners of war. When the clouds covering Mount Kenya part one morning to reveal its towering peaks for the first time, prisoner of war Felice Benuzzi is transfixed. The tedium of camp life is broken by the beginnings of a sudden idea - an outrageous, dangerous, brilliant idea. There are not many people who would break out of a P.O.W. camp, trek for days across perilous terrain before climbing the north face of Mount Kenya with improvised equipment, meagre rations, and with a picture of the mountain on a tin of beef among their more accurate guides. There are probably fewer still who would break back in to the camp on their return. But this is the remarkable story of three such men. No Picnic on Mount Kenya is a powerful testament to the human spirit of revolt and adventure in even the darkest of places. "The history of mountaineering can hardly present a parallel to this mad but thrilling escapade" - Saturday Review "A most extraordinary prisoner-of-war and escape story" - New Yorker "A mad venture and a gallant tribute to man's deep yearning for freedom" - Kirkus Reviews "The book crackles with the same dry humour as its title. It contains the prison-yard bartering and candlelight stitching that mark a classic jailbreak yarn; the encounters with wild beasts in Mount Kenya's forest belt are as gripping, and the descriptions of sparkling glaciers as awe-inspiring, as any passage in the great exploration diaries of the early 20th century" - The Economist

For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

Few war films made about the 1939-45 period are complete without sight of a boxy little Kübelwagen light utility vehicle being smartly driven by a German officer. Designed by Ferdinand Porsche and built by Volkswagen, the 'Kübel' was to the Germans what the Jeep was to the Allies and was used widely by the Wehrmacht and the Waffen-SS. When production ceased at the end of the war, 50,435 Kübelwagen had been built. Of simple but sturdy construction, the VW Type 82 Kübelwagen (which translates as 'bucket car' because of its similarity to a metal bathtub on wheels) was based closely on the legendary VW Beetle. Its winning design features included air cooled engine (the absence of a radiator meant the engine was less vulnerable to bullet damage), a light-weight, flat and smooth under-body that allowed the car to slide over the surface when its wheels were sinking into sand, mud or snow, independent suspension, portal gear hub reduction and self-locking differential. Because the body was not a load-bearing part of the structure of the vehicle it could easily be modified to special purposes. Several dozen variants of the 'Kübel' were developed and built during the war including its cousin the Schwimmwagen. The VW Type 128 and 166 Schwimmwagen (which means floating or swimming car) were amphibious four-wheel drive off-roaders. Like the Kübel, they were used widely by the Wehrmacht and the Waffen-SS during the Second World War. The Type 166 Schwimm is the most numerous mass-produced amphibious car in history (14,265 between 1942 and 1944). Erwin Komenda, Ferdinand Porsche's first car body designer, developed an all-new unitized body-tub structure for the Schwimmwagen swimming car. When crossing water a screw propeller could be lowered from the rear deck engine cover and coupled to the engine's crankshaft to provide drive. The 'Schwimm' also shared many of the Kübel's mechanicals. The appeal of the Kübel lived on long after the war's end when a derivative version, the Volkswagen Type 181, was manufactured by VW from 1968 to 1983. This was a two-wheel drive, four-door, convertible, off-road military vehicle, which had been developed for the German Army but was also sold to the civilian market as the Kurierwagen in Germany, the Trekker in the UK, the Thing in the US, and the Safari in Mexico. In recent years both the Kübel and Schwimm have acquired something of a cult status among military vehicle collectors worldwide, particularly in Europe (eg, Germany, Poland Czech Republic, Switzerland), the UK and US. There are literally dozens of Kübelwagen and Schwimmwagen enthusiast/owner/interest groups! About 150 original Type 166 Schwimmwagens remain today. This second edition of Historical Dictionary of Italian Cinema contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on major movements, directors, actors, actresses, film genres, producers, industry organizations and key films.
